

Exceptionally Performing (EP) Team & Masterchef Program /

Food nourishes relationships. Cooking and eating together builds and reinforces bonds between people which is why the Exceptionally Performing (EP) Team and Masterchef program provides the ultimate learning and bonding experience for team members.

The morning will begin with an Exceptional Performing (EP) Team session. All participants will learn about rogenSi's "secret" to exceptional team performance and the dynamics within this. In order for the team to perform at an exceptional level it must be comprised of three core components; a) the EP Team Person, who must have the knowledge, skills, processes and mindset at the exceptional level in their required role; b) the EP Team Leader, who must be a technical, management, leadership and coaching expert at the exceptional level; c) with the team performing in an EP Team Dynamic that fosters and cultivates the necessary behaviours that need to exist in delivering exceptional results.

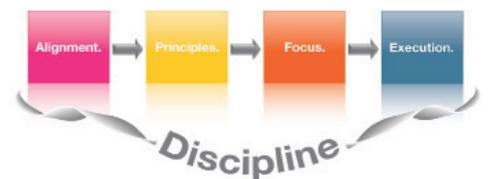

At the heart of an Exceptional Performance Team Dynamic is: Discipline. This discipline promotes decisiveness and standards of excellence while ensuring direct accountability. Such discipline is a main reason why commitments and expectations are always clear. In an EP Team Dynamic individuals are informed and aligned around a shared vision. They have a high level of mutual trust with a laser like focus on continuous improvement. Finally these teams are self-directed and execute according to a plan. The consequence of this dynamic is people that are truly engaged in the business of the organisation, supported to deliver exceptional results.

The EP Team & Masterchef Program explores in depth the necessary requirements that need to exist and workshops the pathway for each team to reach the exceptional performance level.

EP Team Dynamic Constructs.

The afternoon consists of the "Masterchef Challenge" where the skills learnt from the EP Team session will be put to test. Team members will be required to work in alignment, share principles, stay focussed and execute towards a common goal – getting the meals on the table! Day 2 will begin with a debrief on the session where team members can come together and reflect on their experiences.

The program can be tailored to suit any organisations needs, to make sure it achieves all objectives. The EP Team & Masterchef program naturally builds relationships among team members, making them work together in an engaging and entertaining way.
